

SOLO *setup instruction*

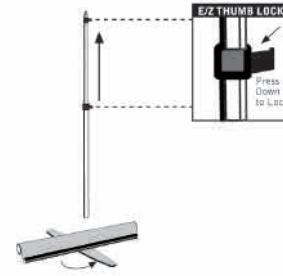

Roll-Up Banner Stand

1

Remove Solo Stand, Telescoping Pole and Banner (comes attached to Top Bar and Base Bar) from the Nylon Carrying Case.

2

Swing out the swivel foot until it locks into place. Extend the telescoping pole halfway and press down on the first thumb lock.

3

NOTE: As you unroll the banner, notice the printed graphic side is rolled face in. For storage roll it back the same way. This will protect the graphic from scratches.

Screw the bottom of the telescoping pole into the centre hole of the base bar. Begin unrolling the banner.

4

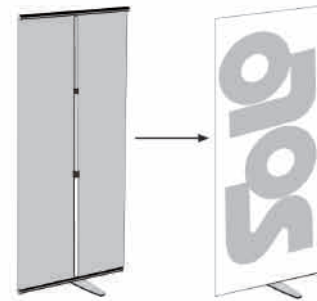

Unroll the banner completely until the top bar is fully exposed. Ensure the graphic is facing out.

5

Insert the top of the telescoping pole into the centre hole located on the underside of the top bar.

6

Extend the telescoping pole to the full length of the banner and press down on the second thumb lock and...ta-da!

7

Finished view of the SOLO Roll-Up Banner Stand.
